

Annual Report

2009 - 2010

A world that ensures good health care and medical facilities to all

OUR MISSION

To detect, prevent and raise awareness on kidney ailments and to provide quality, affordable treatment to underprivileged people.

- ❧ The TANKER (an acronym for Tamilnad Kidney Research) Foundation is a registered, non - profit charitable trust, founded on 30th June 1993.
- ❧ TANKER aims to provide health care and financial assistance to those who have kidney problems and do not have the wherewithal to seek medical attention.
- ❧ TANKER cares for the underprivileged, who suffer from kidney problems of any kind, regardless of caste, creed, sex or religion.
- ❧ TANKER, along with our goodwill ambassador Actor Suriya, intends to set up subsidised dialysis units in other parts of Tamil Nadu.
- ❧ TANKER, with Actor Suriya's help, aims to take awareness programmes to schools and colleges all over Tamil Nadu.

HOW TANKER WORKS

We have completed 16 years of service on June 30th 2009, contributing to the field of healthcare, research, training and advocacy with the purpose of helping underprivileged patients with kidney failure. As of March 2010, 67,007 dialyses have been given at subsidised rates for 598 patients, Rs. 56.35 lakhs has been disbursed to 930 patients through one-time contributions and 151 awareness programmes have been conducted.

Our first Dialysis Unit at Kilpauk (Chennai), started in the year 1999, has 11 Dialysis Machines. 550 dialyses were done per month out of which 160 were done free of cost. Our second Dialysis Unit at Ambattur Rotary Hospital (Chennai), started in 2006, has 5 machines. 253 dialyses were done per month, out of which 55 were free. Our third Dialysis Unit at TVS Hospital, Chokkikulam (Madurai), also started in 2006, has 7 machines. 280 dialyses were done per month, out of which 80 were free. In December of 2009, we opened our HIV Dialysis Unit with two machines dedicated to HIV patients having kidney failure. As of March 2010, we had 137 patients in the TANKER Fold.

The patients who seek our Dialysis Units are from impoverished backgrounds earning meager salaries. Some of them are auto rickshaw drivers, coolies, widows and those who have become unemployed due to this terrible disease. TANKER helps these underprivileged patients by giving them free or subsidised dialysis. The WEBSITE cost of dialysis per sitting in hospitals ranges from Rs. 800/- to Rs. 2500/-. Our cost is Rs. 800/- and we provide the dialysis at Rs. 400/- including the dialyser and tubings. The balance of Rs. 400/- is borne by us with the help of donations.

FINANCIAL CONTRIBUTIONS

The Foundation helps needy patients from all over India by offering them one-time contributions ranging from Rs. 1,500/- to Rs. 20,000/- towards fistula surgery, EPO injection, transplantation, investigation and post-transplantation medication costs. Upto March 2010 financial help has been given to the tune of Rs. 56.35 Lakhs helping 930 patients through the donations we get.

HISTORY OF SOME PATIENTS HELPED BY TANKER

Dialysis

Mr Rajan is 46 years old, working as a security guard in a private company and earning Rs 2,500 a month. His wife is a homemaker and he has two school-going children. He was diagnosed with kidney failure in 2009 due to high blood pressure. He was initially treated at the Government Hospital, but as they do not perform maintenance dialysis unless the patient has a related donor for transplantation, he had to be treated at a private hospital. As he could not meet the financial costs, he registered with TANKER and has been receiving subsidized dialysis since February 2010.

Fistula Surgery

Mr Thangarajan is 58 years old and developed kidney failure in March 2010. He approached TANKER for financial assistance with his fistula surgery. A fistula needs to be done for a patient to have dialysis. This is where a vein and an artery are joined at the wrist to give proper access for dialysis. As he is unemployed, the foundation helped him with his fistula surgery cost. His son has offered to donate his kidney to Thangarajan, but the latter's health condition has rendered him unfit for a renal transplantation.

Transplantation

Mr Senthil Kumar is 35 years old and resides in Tirupur.

He works as a salesman at a textile company and earns Rs 4,000 per month. He lives with his parents, who are retired. His kidneys failed and he started

undergoing dialysis in June 2009. His mother came forward to donate her kidney to him. He had a renal transplantation at a private hospital in Coimbatore. TANKER partly funded his transplantation costs.

Dialysis

Mr Dexter is 36 years old. He works part-time at a charitable trust, making Rs 2,500 a month. He was diagnosed with renal failure due to hypertension in January 1996. He was advised by doctors at a government hospital to undergo a kidney transplant. His mother volunteered to donate her kidney to him and he underwent a transplantation in September 1996. Post transplantation, all patients are required to take anti-rejection medication. However, Dexter could not afford these medicines and two years later, he was diagnosed with renal failure again and was back on dialysis. He has been undergoing subsidized dialysis at TANKER since October 2001. He is hoping for a cadaver transplantation in the future.

Investigation

Mrs Alamelu is 35 years old and the wife of a farmer, who earns about Rs 2000 per month. They have a young son. She was diagnosed with kidney failure in 2009. She was first treated at a government hospital and was then shifted to a private hospital in Chennai. Her husband can barely afford her dialysis expenses. As she does not have a related donor for transplantation, she has registered with the government hospital and awaits a cadaver transplant. Her doctor advised her to take an HCV RNA test, that determines the prevalence of Hepatitis C. TANKER paid for the test and the investigation costs.

THE KRISHNAN-ANG ENDOWMENT LECTURE

The Krishnan-Ang Endowment Lecture was delivered by Dr. Robin Eady, the longest living person with kidney failure. He developed kidney failure at the age of 20 in 1962 and he talked about his trials, tribulations and triumphs.

RESEARCH SERVICE AWARDS GIVEN ANNUALLY

“The Muthoot M. George Memorial TANKER Foundation Research Award” was awarded to Dr. Narayan Prasad, Assistant Professor of Nephrology, SGPGI, Lucknow for his dedication and research to help children affected with kidney disease.

“The Renny Abraham TANKER Foundation Love for Service Award” was awarded to Dr. Anita Rao, Director, Medical Services, TT Ranganathan Clinical Research Foundation for going beyond the call of duty and personally helping thousands of patients fight addictions.

“The La Renon TANKER Foundation For the Sake of Honour Award” was awarded to Dr. Robin Eady for his research work in dermatology and his triumph over kidney disease.

“Mrs. PC Mary - Tanker Foundation Young Investigator Award” was awarded to Dr. Amol R. Mahaldhar.

FUND RAISING EVENTS

TANKER holds one main fund raising event annually, which is the Republic Eve TANKER Charity Nite. This event has taken place every year from the year of inception. Many local celebrities who support our cause attend this event and donations are made directly. One of the highlights of the programme is the music or dance programme that is usually performed by a survivor of kidney disease or any other major ailment.

This year we had a special music performance by the band from Nethrodaya, a self-help institution for the visually and physically challenged.

SPREADING AWARENESS AND NETWORKING

Awareness Programmes

The Foundation regularly organizes talks in schools for creating awareness about kidney diseases and the symptoms to look out for, their prevention and early treatment. Upto March 2010, 151 such programmes have been conducted by Mrs. Rajalakshmi Ravi, Dr. Suresh and Dr. Georgi Abraham.

Screening Camps

The Foundation regularly organizes screening camps in schools and communities for early detection and diagnosis of kidney related problems. Such camps highlight the need for timely treatment of kidney ailments. Upto March 2010, 16 such programmes have been done by Mrs. Rajalakshmi Ravi, Dr. Suresh and Dr. Georgi Abraham.

Internship and Training

TANKER Foundation also offers internships to students from colleges doing under graduate and post graduate courses which enable them to learn about the functioning of an NGO by participating in all the NGO's activities. Our interns have been a part of our awareness programmes, administrative work, fund-raising projects and counseling. The Foundation is a training ground for nurses and lab technicians.

Issues and Challenges

Setting up of TANKER Subsidized Dialysis Unit in Coimbatore to give subsidized and free dialysis for needy kidney failure patients in and around Coimbatore. We intend to expand our services by setting up several units in and around Chennai.

Other Developments

We hope to open Subsidized Dialysis Units in Trichy, Thirunelveli and other areas of Tamil Nadu. TANKER Foundation is able to offer subsidized dialysis at a very low cost mainly because the space where the unit is situated is donated to us on an MOU with no rental costs. Our three units so far and our administrative office are in rent free premises.

In Coimbatore Shri. Krishna Kumar of Arya Vaidya Pharmacy (Coimbatore) Ltd. has come forward generously and given us space in the heart of Coimbatore with easy access for patients and also hospitals nearby.

TANKER FOUNDATION ACTIVITIES

Joy of Giving Week

- “ The Battle of the Buffets was held on October 1st 2009. 101 Dinner passes were sold for Rs. 5000/- each. Proceeds went towards subsidising dialysis costs.
- “ On October 2nd 2009, a screening camp was conducted by Mrs. Rajalakshmi Ravi and volunteers at Ashoka Park Government Girls Higher Secondary School, Ashok Nagar, Chennai.
- “ Kidney Alert awareness stickers were posted in 500 auto rickshaws, and “Know Your Kidneys” leaflets, both in English and Tamil, were distributed to passengers.
- “ Rs. 50,000/- from the sales of two signature dishes – black dhal at Kebab Court and chicken biriyani at Karaikudi Restaurant during this week were donated to TANKER by Mrs. Nina Reddy of Savera Hotels Group.
- “ Hapag-Lloyd Global Services – Music group entertained TANKER's Kilpauk Unit patients on 3rd October 2009.

5th World Kidney Day Activities

A Continuing Medical Education (CME) Programme on Renal and Endocrine Problems in Pregnancy.

A CME programme was conducted by Prof. Susan Hou and Prof. Mark Molitch on the 8th of March 2010 at The Madras Medical Mission, Chennai.

Prof. Susan Hou is an internationally renowned expert on renal disorders in pregnancy and a great humanitarian who works tirelessly in underserved areas and has performed the greatest act of human kindness by donating her kidney to her own patient.

Prof. Mark Molitch is the world authority on Prolactin, endocrine testing during pregnancy and management of many endocrine problems during pregnancy. Prof. Molitch is also well known for his expertise in Diabetes and Diabetic nephropathy.

Music Concert by Mrs. Sudha Ragunathan

A concert by celebrated Carnatic musician Padmasri Smt. Sudha Raghunathan was held on Wednesday 10th March, 2010, at Savera Hotel.

Her gracious gesture to perform for World Kidney Day without any cost will never be forgotten. She was so energetic and her performance was really amazing.

Mrs. Sudha Ragunathan is a person given to several charitable causes and her encouraging words and the wonderful concert gave our organisation a chance to make more people aware of this silent killer.

Padma Bhushan Sri N. Vaghul, our Patron, and Dr. Georgi Abraham, our Founder Trustee, also spoke on the occasion.

Public Screening Camps for early detection of kidney disease

We had three public screening camps in

Coimbatore Arya Vaidya Pharmacy on 11th March 2009

Madurai TVS Hospital on 13th March
Ambattur Rotary Hospital on 13th March

Other Activities

A very special thanks to Mr. Raghunath of Europa Stores, Mrs. Nina Reddy of Savera Hotel, Dr. Anita of Lister Laborites, Mr. Mahadevan of Oriental Cuisines and Mr. Murali of Sri Krishna Sweets for the extensive help rendered towards the "World Kidney Day Activities" by putting up our posters and distributing leaflets in their retail outlets. Their support went a long way in creating awareness among the public about kidney diseases.

Dr. Suresh, Medical Director of TANKER Foundation, spoke about kidney disease on Radio Mirchi and All India Radio on 11th March 2010, the Fifth World Kidney Day.

Email Posters/Leaflets

Our thanks to Ms. Sumitra Ghose for having sent out more than 1.5 lakhs of email posters / leaflets during the World Kidney Day week.

Admin Office

TANKER Admin office staff distributed green ribbons & World Kidney Day leaflets in Marina Beach on World Kidney Day for over 100 people to create awareness of kidney disease.

Our special and grateful thanks to our Goodwill Ambassador Actor Suriya for having allowed us to use his photograph in all our World Kidney Day posters, banners and leaflets and also for the Radio byte given on Chennai Live 104.8 FM on 11th March, the 5th World Kidney Day.

Helping the underprivileged with kidney ailments

11 March 2010

INAUGURATION OF HIV DIALYSIS FACILITIES AT TANKER FOUNDATION

It has been TANKER's dream to reach out to people suffering from HIV who also have Kidney Failure. With the help of generous donors, we inaugurated our HIV dialysis unit, which is the first of its kind in India.

We believe that every life is precious and important. We should set aside our prejudices and endeavor to reach out to the marginalised. The inauguration was held on Saturday 28th November, 2010. Sri. Vayalar Ravi, Honorable Minister of Overseas Indian Affairs, was our Chief Guest.

Our first HIV dialysis patient was Mr. Shakthivel, a lorry driver. He is married with two school-going children. He has been having treatment for HIV for the past twelve years. He owned five lorries, which he had to sell for his treatment. At present, he is driving an auto rickshaw. TANKER is helping him stay alive with subsidised dialysis.

TANKER is grateful to our generous donors, enablers, volunteers and staff who have helped so unstintingly in carrying out all our activities.
